

Weathered Versa-Lok Standard

Versa-Lok®Weathered Standard

The tried and true Versa-Lok Standard continues to be the retaining wall system of choice for do-it-yourselfers, professional installers and design professionals. But now, it's available in our popular weathered finish for endless design possibilities.

The 100% solid units provide not only the long lasting durability engineers and contractors expect, but also the limitless number of design options architects and homeowners crave. Solid Versa-Lok Standard allows you to design a seemingly unending number of curves, corners, columns and steps — with just one unit! No special-sized units are needed, unlike hollow or “cored” systems that can't be split. Versa-Lok's classic split face texture and consistent earthy colors blend seamlessly and beautifully with the surrounding environment
